

# Software For The Design Of Walk-In Coldstores

## INDEPENDENT CONSTRUCTOR VERSION

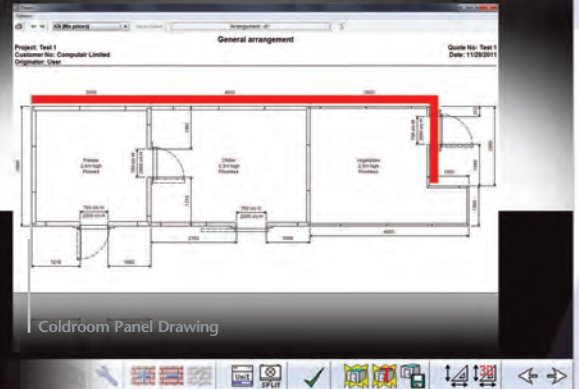

For the company that buys panels from one or more supplier and provides an install service

With over 30 years experience in the foodservice manufacturing industry, our personnel are well aware of the pitfalls and requirements associated with specifying, manufacturing and constructing coldstores.

For the Independent Constructor, a self maintained package that enables coldstores to be designed and costed. The software can be tailored to suit your own individual mode of operation.

3D Drawing multiple rooms with different height ceilings

Coldroom Panel Drawing

### Independent Constructor Version Outputs

- > Generate proposal with drawing
- > Produce sale price on proposal
- > Generate panel arrangements to standard panelling rules
- > Generate installation drawings
- > Generate panel packing list
- > Generates panel cut instructions for bought in assembled panels
- > Generate full BOM
- > Export to other business software operations

**Increase turnover without increasing your overheads**

## Independent Constructor Process

### Enquiry

- > Draw room to customer requirements
- > Configure finishes, heights, floor etc.
- > Add doors, shelving, ceiling supports and other items
- > Size and add refrigeration equipment
- > Automatic generation of panel arrangements and pricing BOM
- > Produce price and generate proposal documents with general arrangement and elevation drawings

### Revision

- > Walls can be dragged to new positions, finishes and other options changed with automatic regeneration for Independent Constructors

### Ship and install

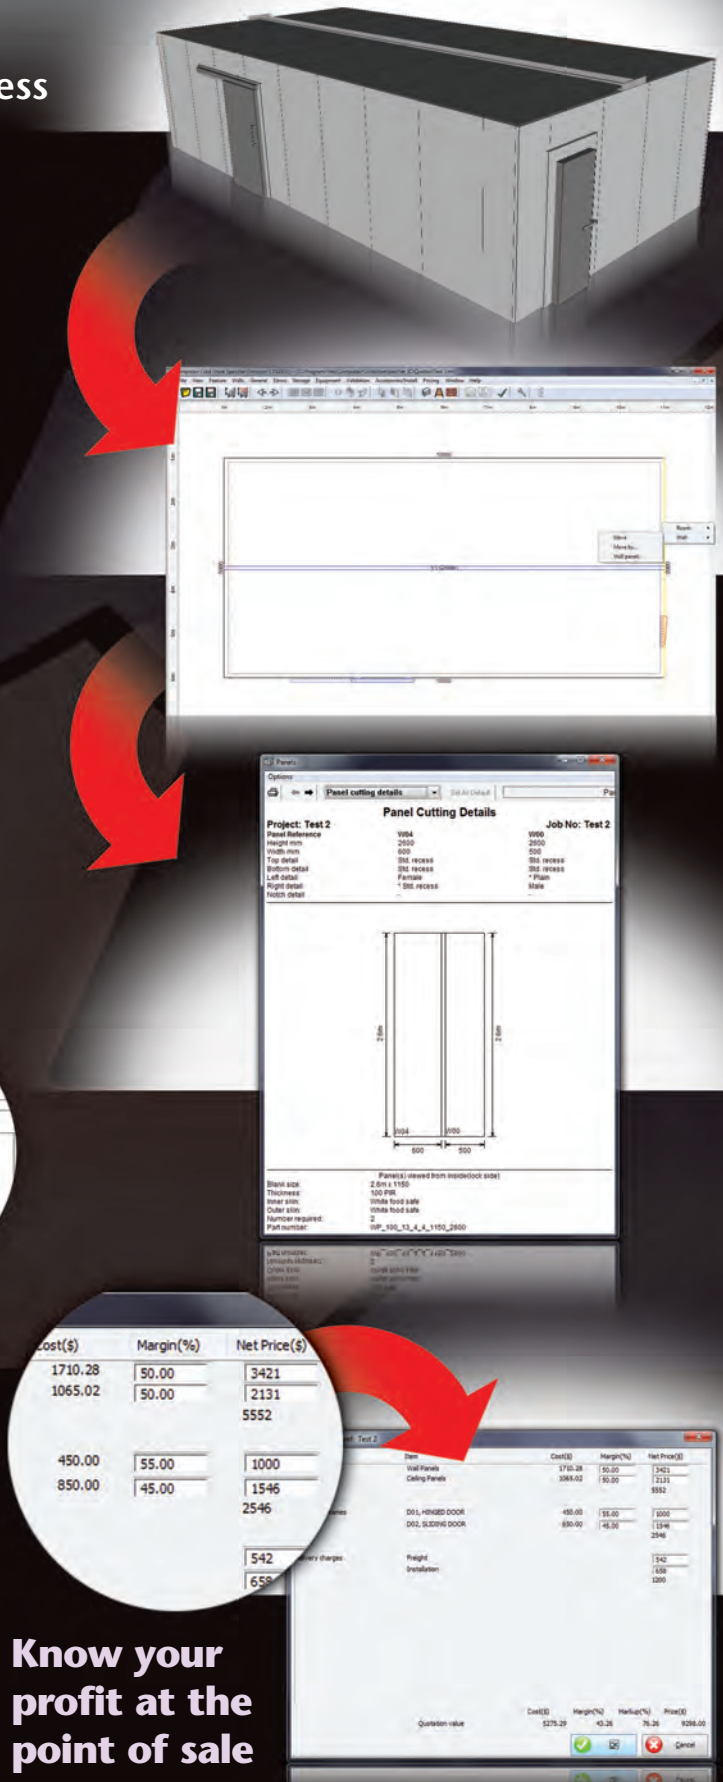

- > Generate packing lists and/or create drawings
- > Automatically generate installation drawings showing floor, floor screed, wall and ceiling panel layouts

### Independent Constructor Version Outputs

- > Easy to use, no drafting/cad skills required
- > Tailored to manufacturing rules & processes
- > DXF and DWG outputs available- 2D/3D Sketch
- > Submittal drawings
- > Edit multiple rooms at the same time
- > Customer configurable construction types
- > Lifetime maintenance and support
